Professional Experience

Senior Software Engineer - eMoment India Pvt. Ltd.
September 2021 - Present

- Developing and maintaining web applications using MERN stack.
- Led various DevOps operations, showcasing advanced skills in application containerization using Docker, managing Kubernetes deployments, and overseeing environment setup
- Provided valuable guidance to development teams, emphasizing and implementing best practices in software engineering.
- Effectively identified, prioritized, and executed tasks throughout the software development life cycle, ensuring alignment with project goals and deadlines.
- Collaborated with cross-functional teams to streamline development processes,fostering effective communication and cooperation among team members.

Senior Software Engineer - Spottabl
March 2023 - August 2023

- Leading the development and deployment of cloud infrastructure in GCP, managing web application deployments, databases, logging, and security.
- Providing guidance to developers on best practices.
- Identifying, prioritizing, and executing tasks in the software development life cycle.
- Continued responsibilities and contributions similar to the Software Engineer role.

Software Engineer - Spottabl
January 2022 - March 2023

- Reviewing and debugging code.
- Collaborating with internal teams and vendors to fix and improve products.
- Setting up CI/CD Pipelines in GitLab.
- Developing and maintaining web applications using ReactJS and related frameworks/libraries like Next.js.

Software Engineer, Freelancer - eMoment India Pvt. Ltd.
September 2021 - August 2023

- Engaging in freelance software engineering projects, leveraging expertise in multiple technologies, methodologies, and tools.
- Developing and maintaining web applications using MERN stack.
- Handling various DevOps operations, including application containerization using Docker, Kubernetes deployment, and environment setup.

Software Engineer - Connectecho Talent Labs
January 2021 - December 2021

- Contributing to MERN stack web application projects.
- Collaborating with cross-functional teams to design and implement new features.
- Troubleshooting and debugging issues, optimizing applications for speed and scalability.

Software Engineer Intern - Connectecho Talent Labs
January 2020 - June 2020

- Gained hands-on experience in software development, collaborating with a diverse team.
- Contributed to the development and maintenance of web applications.

Automation Tools Development Intern - Kreeda online services(OPC) Pvt Ltd.
June 2019 - July 2019

- Worked on automation tools development, gaining exposure to various technologies and methodologies.

Key Skills

- Programming languages: Java, C, C++, Python.
- Operating systems: Windows, Linux, macOS.
- Data structures and algorithms.
- Computer networks and network security.
- Web development: HTML, CSS, Javascript, Bootstrap, Bulma CSS, Chakra UI, Styled Components.
- Backend technologies: Nodejs, Expressjs, Nestjs.
- Frontend frameworks: Reactjs, Nextjs.
- Databases: Firebase, MongoDB, MySQL.
- DevOps: Linux, Nginx, Docker, Kubernetes.
- Version control and collaboration tools: Github, Gitlab, CI/CD, Jira, Trello.

- Analytics and monitoring tools: Mixpanel, Sentry, Google Analytics.
- Agile Software Development, Problem Solving, Scrum, OKRs.

Education

Bachelor of Technology in Information Technology
Alliance College of Engineering and Design at Anekal
May 2016 - June 2020
